INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

期限: 4 月 22 日

| | | |
|--|--|--|
| Applicant's or agent's file reference P05020900 | FOR FURTHER ACTION see Form PCT/ISA/220 as well as, where applicable, item 5 below. | |
| International application No. PCT/JP 2004 / 014982 | International filing date (day/month/year) 04.10.2004 | (Earliest) Priority Date (day/month/year) 06.10.2003 |
| Applicant FUJI PHOTO FILM CO., LTD. | | |

This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This international search report consists of a total of 3 sheets.

☐ It is also accompanied by a copy of each prior art document cited in this report.

1. Basis of the report

- a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

- b. ☐ With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I.

2. ☐ Certain claims were found unsearchable (See Box II).

3. ☐ Unity of invention is lacking (See Box III).

4. With regard to the title,

☒ the text is approved as submitted by the applicant.

☐ the text has been established by this Authority to read as follows:

5. With regard to the abstract,

☒ the text is approved as submitted by the applicant.

☐ the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. With regard to the drawings,

- a. the figure of the drawings to be published with the abstract is Figure No. _____

☐ as suggested by the applicant.

☐ as selected by this Authority, because the applicant failed to suggest a figure.

☐ as selected by this Authority, because this figure better characterizes the invention.

- b. ☒ none of the figures is to be published with the abstract.

INTERNATIONALSEARCHREPORT

International application No.

PCT/JP2004/ 014982

A. CLASSIFICATION OF SUBJECT MATTERInt.Cl⁷ B32B27/00 C08J7/04 C09D183/07 G11B7/24

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Int.Cl⁷ B32B1/00-35/00 C08J7/04-7/06 C09D1/00-201/10 G11B7/24

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Japanese Utility Model Gazette 1922-1996, Japanese Publication of Unexamined Utility Model Applications 1971-2005, Japanese Registered Utility Model Gazette 1994-2005, Japanese Gazette Containing the Utility Model 1996-2005

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

| Category* | Citation of document, with indication, where appropriate, of the relevant passages | Relevant to claim No. |
|-----------|--|-----------------------|
| A | JP 61-78806 A(CHISSO CORPORATION)1986.04.22 (Family; none) | 1-13 |
| A | JP 2002-322301 A(LINTEC Corporation)2002.11.08 (Family; none) | 1-13 |
| A | JP 11-29720 A(LINTEC Corporation)1999.02.02 & US 6103370 A1 | 1-13 |
| A | JP 10-265737 A(TOYO INK MFG. CO., LTD) 1998.10.06 (Family; none) | 1-13 |

Further documents are listed in the continuation of Box C.

See patent family annex.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family

Claim 1 says "the outermost layer comprises the actinic energy-curing resin comprising a silicone resin having a silicone content of from 23 to 32 weight%".

However, the description only shows examples of the outermost layer comprising a acrylic monomer and a polydimethylsiloxane having three or more ethylenicallyally unsaturated groups. Without a acrylic monomer and three or more ethylenicallyally unsaturated groups, "high surface hardness" can not be achieved.

Now therefore, Claims 1-13 are not supported by the description as required by Article 6 PCT as their scope is broader than justified by the description and drawings.

This international search report only covers "the outermost layer comprising a acrylic monomer and a polydimethylsiloxane having three or more ethylenicallyally unsaturated groups".
